**MODULES**

Order Code	Application				Suggested Retail
------------	-------------	--	--	--	------------------

Draftmaster hitch racks consist of 2 or more modules, all of which can be ordered independently and mixed & matched to suit your needs:

- 1) Interconnect parallelogram swing away mechanism
- 2) Cross Arm Assembly (upper and lower) of the appropriate configuration. This is where most customization occurs.
- 3) Specialty Rails as needed for bikes with wheelbases longer than 48 inches and specialty applications like tandems, long recumbents, and trikes.

**1) INTERCONNECT: Do not exceed 50% of receiver's tongue load capacity.**

Int125	with connection for 1.25" Class I and II receivers				\$ 575.00
Int200	with connection for 2.00" Class II+, III, and IV receivers				\$ 575.00
Int200XL	with extra long (+7.5") connection for 2.00" Class II+, III, and IV receivers				\$ 610.00

**2) CROSS ARM ASSEMBLY:**

The CAA code tells us what mounting hardware to install and how wide your cross arms need to be  
See the Quick Reference Guide for an explanation of the CAA codes  
The CAA- codes shown below correspond to the HR- codes shown on the BUNDLED SYSTEM ORDERING page
